

Catacomb Ad Decimum at Grottaferrata (RM)

This catacomb, which is located at the 16th kilometer of the Via Anagnina at Villa Senni (Grottaferrata), dates back to the end of the third century and functioned until the early decades of the fifth century.

It appears to be quite extensive and particularly important for the almost perfect state of preservation of some of its sectors, as well as for the many frescoes and funeral inscriptions preserved in it.
